Website	www.cypresswood.com

The Bright Light Foundation (BLF) is a volunteer organization founded in 2003 to provide financial assistance to oil field industry families who have experienced a catastrophic illness.

None of us expect to experience a catastrophic illness, but in reality, they strike often and can quickly deplete the financial resources of many families. Families of those working in the oil field industry who are incurring extensive medical expenses associated with a catastrophic illness can apply to BLF for financial support.

Annually, BLF selects recipients from the submitted applications. Eligibility requirements and applications are located on the BLF website. We invite individuals and companies to support our effort through direct contributions, participation in our annual dinner/auction and golf tournament, and by providing referrals of eligible candidates.

Since we began our efforts, we have provided significant financial assistance to more than 31 needy families within the oil industry. We are able to do this as a result of the wonderful support provided by the many corporate and individual sponsors who have so generously given to benefit those in need.

We Invite You to Join the BLF Family in 2011!
